

**DESIGNED FOR PEACE OF MIND**

**Pineapple**

	When we design furniture for some of the most difficult environments imaginable,	DESIGNED	
	the first thing we do is listen. Listen to our customers’ unique challenges, their day to		
	day needs and above all, who they need to look after.		
	Listening is the first step of the ‘Pineapple Process’, helping us to find furniture that	FOR PEACE	
	precisely solves the problem. If we don’t have something suitable, we create it.		
	Innovative solutions, technical expertise and thoughtful design, we take pride in		
	creating furniture that’s exactly fit for purpose.		
		OF MIND	
	Our customers get mindfully designed furniture that works effortlessly and looks		
	great. But much more than that, they can go to work knowing they’ve done		
	everything they can to create a calm environment.		

## IT ALL BEGAN IN

Our founder, William Hathorn, started our company in a workshop in London, England. Originally trading as Pine Productions, based on the popular wood we used to build our furniture, we crafted strong, durable products using traditional carpentry methods. But as our business grew and we began to provide furniture in a variety of materials for the healthcare market, the name no longer fitted. So, with a nod to our beginnings, we took a bold step and became Pineapple.

As our reputation for designing for demanding environments grew, so did demand for our products and we soon expanded into new premises, doubling our production capacity. We started creating technically advanced furniture for secure settings like mental health units and prisons, as well as lower risk spaces like hospitals, healthcare and education facilities.

# 1975

# TODAY

## 45 YEARS OF INNOVATION

We continue to create innovative furniture to deliver real-life solutions for our customers and, from initial concept right through to manufacture and delivery, we have full control of the process. All of our designs are either manufactured by us or by our carefully chosen partners who produce our furniture under license to meet our precise specification and design.

While our business is now international and our vision more ambitious than ever, we're still a family business at heart. Our work ethic and attention to detail is exactly the same as when we started in 1975.

# THE PINEAPPLE PROCESS

# We listen

01

We listen more widely and more deeply to our customers' unique set of challenges; they might be safety concerns, maintenance issues or limited space. With forty years of experience under our belts, we're good at listening and know the right questions to ask.

02

understand

Drawing on the expertise of our Global Advisory Board and our knowledge of best practise, we identify solutions that fit each brief. Then we define exactly what your furniture needs to deliver purpose for your environment, taking physical, functional and emotional needs into account.

03

# match

Now we understand your environment and precise needs, we can match you with the right products that will solve them. With hundreds of ranges to choose from, there is usually a solution that fits but if there isn't, we'll work with you to create one.

04

We deliver mindfully designed furniture that is exactly fit for purpose. We continue to learn from each new project, building the knowledge we gain into our new and existing product ranges to make them safer than ever.

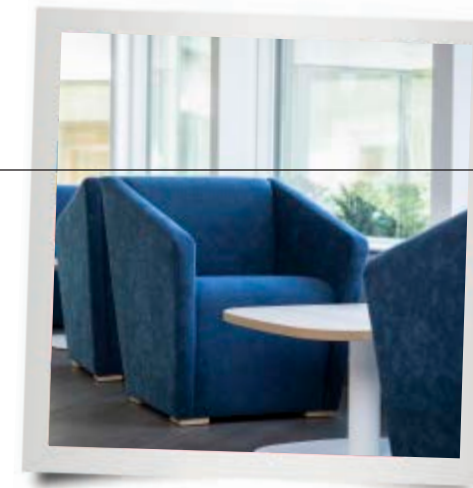

deliver

We were asked to supply strong, reinforced furniture for this PICU in Northern Ireland

# BELFAST CITY HOSPITAL

*Reinforced furniture was used to create a tranquil environment which is relaxing and safe in equal measure*

From the outset, Belfast Health and Social Care Trust's recently opened Acute Mental Health Inpatient Unit was designed to be an inclusive, healing space for its residents. The unit comprises 80 bedrooms, 6 psychiatric intensive care unit (PICU) beds and variety of gardens and shared spaces.

With careful upholstery selection, reinforced furniture was used to create a tranquil environment which is relaxing and safe in equal measure.

In the communal lounges, Rubus sofas provide sturdy durable seating, paired with Cumulus coffee tables in a bespoke wood-effect finish, while Cumulus dining tables with matching wood-effect tops and Eclipse chairs create an informal dining/study space.

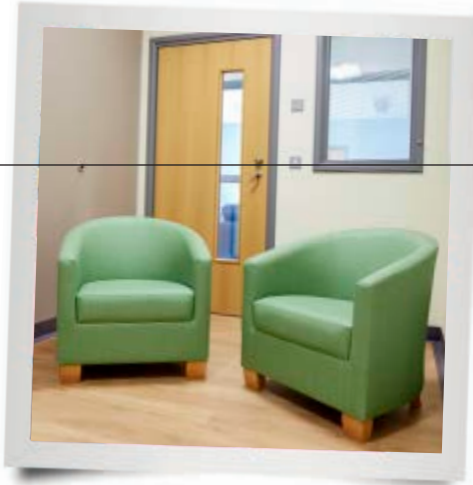

Reinforced Skye Plus and modular Ohio Plus offer relaxed seating throughout the building, while Snug Plus modular units have been used to create a variety of cosy layouts to suit each space.

This mental health unit in Wales asked us to help them create a positive environment for their patients

# HAFAN Y COED

*Creating a bright and positive setting while maintaining safety for patients and staff was of the utmost importance*

Hafan y Coed (Haven of Trees) is the name of the adult mental health unit at the University Hospital Llandough. From the outset, Cardiff & Vale University Health Board aimed to provide a ‘calming, warming and welcoming’ environment for patients in order to reduce stigma and preserve dignity.

Creating a bright and positive setting while maintaining safety for patients and staff was of the utmost importance, so Ryno tables and chairs were used both inside and out, offering safe and secure seating while also adding a vibrant splash of colour.

Their heavyweight design means they cannot easily be picked up or thrown, and their one-piece construction adds excellent durability.

Domus Plus chairs (also heavily weighted) were selected for the reception area, adding warmth and comfort with their veneered plywood shells and upholstered seats. In other areas of the hospital, Tempo tub chairs were used to provide comfortable, informal seating.

This customer needed safe and comfortable furniture for their mental health support centre in Nottingham

# HOPEWOOD

*"The flexibility of the products allows us to easily reconfigure the furniture, giving us the ability to change how day spaces are used and how they look and feel"*

Hopewood was recently built by Nottinghamshire Healthcare NHS Foundation Trust to provide support for adolescents, pregnant women and women with babies under 1 year old who are experiencing mental health difficulties.

After visiting our showroom to compare products, the customer selected items from the Ryno range for an extended trial in a live environment to ensure they were satisfied before committing to an order.

We were also able to help with our free spaceplanning service to design efficient room layouts. Modular Snug sofas along with Boden bean bag chairs provide laid-back seating for the Adolescent unit lounge, while homely Aruba sofas were chosen for the mother and baby unit.

All fabrics and finishes were carefully co-ordinated by the customer, and has resulted in a soothing, relaxing environment in which to recover.

# THE FULL PACKAGE

Our extensive furniture range can be used to furnish all areas of a modern facility, helping to create a safer environment for patients, staff and visitors.

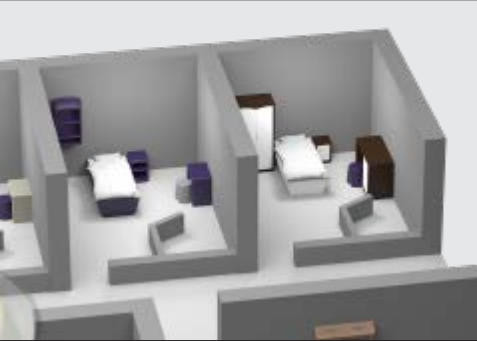

**Dining area**  
Stress can be heightened during mealtimes, so our furniture is designed to minimise conflict as well as withstand outbreaks of challenging behaviour. Our Ryno® activity table weighs 140kg to prevent overturning and preserve safety.

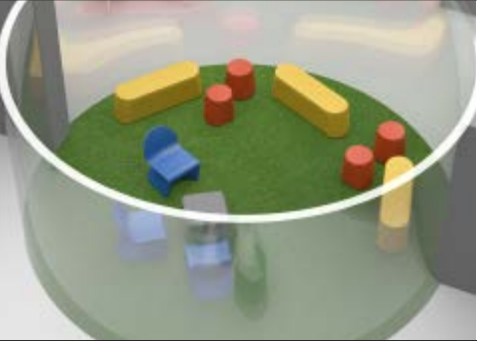

**Quiet lounge**  
Modular reinforced seating like our Snug Plus range can help to encourage social inclusion, while soft foam shapes and cosy beanbags provide a safe space for quiet reflection.

**Waiting area**  
Space efficient, easy-to-clean designs like Skye provide comfort for visitors while enabling staff to fulfil their duties more efficiently.

**Bedroom**  
Bedrooms are private spaces where round-the-clock observation may not be practical. Our safest bedroom ranges are designed to minimise ligature risks and reduce opportunities for damage.

**Outdoor space**  
Products in our Ryno® range are totally water resistant and UV stabilised, and are heavily weighted as standard, making them a safe and durable option for outdoor spaces.

**TV lounge**  
Lockable wall and floor mounted TV cabinets with durable polycarbonate screens offer protection for equipment, and there is extensive choice in our broad range of sofas.

**RYNO<sup>®</sup>**

**EXTRAORDINARY**

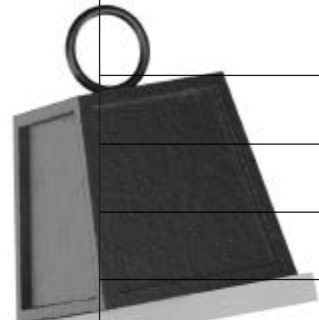

**RESILIENCE WITH**

**ORGANIC STYLING**

# RYNO<sup>®</sup>

Ryno products are made to the highest standards and designed to withstand the harshest treatment, representing value for money over their lifetime.

All have been created with safety in mind, with all their characteristics resulting in safer settings for users and staff.

## Heavyweight

Ryno products can be heavily weighted to make them near-impossible to pick up or throw, to create safer environments

## Strength

Their one-piece construction enables Ryno products to withstand extreme treatment, with smooth curves distributing impact evenly throughout the product

## Weatherproof

Ryno products are totally water-resistant and UV-stabilised, making them suitable for indoor and outdoor use in all weather

## Fixing

Using our unique hidden fastening methods, Ryno products can be secured to floors and/or walls, deterring weaponisation and reducing opportunities for concealment [above](#)

**Lifetime guarantee**

All Ryno products are covered by a lifetime guarantee against manufacturing faults, providing additional peace of mind [below](#)

## Non-flammable

The entire Ryno range is fire-retardant, adding an extra level of safety essential in challenging environments

# WHAT MAKES IT PLUS?

Our Plus models are designed with optimum safety and durability in mind. But what differentiates them from our standard versions?

Domus	→ Page 63
Skye	→ Page 65
Tempo	→ Page 67
Zen	→ Page 69
Snug	→ Page 71
Ohio	→ Page 73

	<b>Security Screws</b> Security screws are used, where applicable, to minimise potential for tampering	
	<b>No piping or visible staples</b> Using no piping or visible staples reduces ligature risks and prevents self-harm	
	<b>Enclosed Base</b> The addition of an enclosed base minimises concealment opportunities	
		Plus ranges are our safest and most secure seating, strength tested for severe non-domestic use. We can also standard versions for less challenging environments.

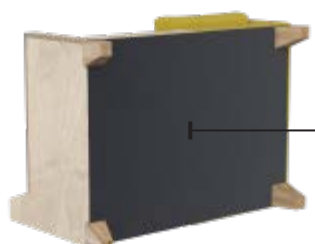

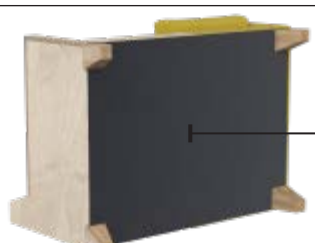

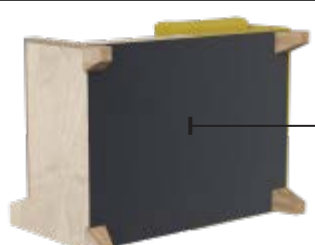

# LEVELS OF REINFORCEMENT

Our sofa ranges come in a variety of shapes, sizes and fabric choices but it is their reinforcement that really sets them apart.

All products are strength tested for severe non-domestic use

→ Full plywood reinforcement for extra strength and weight		<i>Armless design assists de-escalation</i>

DE-ESCALATION COUCH

JAK

In situations where a patient is in severe distress and initial verbal de-escalation techniques have proven ineffective, physical intervention may be used as a last resort to prevent the patient causing harm to themselves and others.

During physical intervention staff will aim to restrict the patient's movements using the minimum force required, maintaining patient dignity. These interventions can be physically demanding, presenting risk of injury.

Through live service evaluations with clinical professionals, every angle of this couch has been optimised to support safer de-escalation practices for patients and staff alike.

ANGLED DESIGN

- Outer seats angled at 33° to allow closer patient engagement, aiding verbal de-escalation
- Tapered footwell aides staff in safe de-escalation practices

LOWERED CENTRAL SEAT

- Helps to control lateral movement
- Gives staff superior leg control

UPRIGHT SEATING POSITION

- Preserves patient dignity
- Supports staff in de-escalation processes

Evidence-based design providing support when it's needed most.

Beneficial for all levels of intervention

Designed and developed in association with:

Andy Johnston Associates

Andy Johnston is a Clinical Director and independent mental health consultant with over 32 years of experience in mental health services including conflict resolution and physical intervention.

"Staff body positions are supported throughout a seated intervention - great to see such a design"

Physical intervention specialist

Weight: 6kg

## KEY FEATURES

- 28mm thick tops and 18mm hickory melamine-faced carcass
- Double thickness drawer fronts with 18mm back and sides and 10mm drawer bottoms result in very robust drawers
- Scalloped handles, piano hinges and curved door tops reduce ligature risks
- Heavy-duty drawer runners (rated to 45kg)

- Half-depth shelf with a groove instead of clothes rail to minimise ligature risks
- Specially designed to minimise concealment areas (e.g. underside, between drawers)
- Heavily weighted to deter misuse
- Security fixings to prevent tampering

## OPTIONS

- Locks to doors and drawers for security
- Wardrobes available with sloping top box to prevent climbing
- Also available in Walnut finish with White doors

# ACUMEN OPEN

Acumen Open  
bedside cabinet with  
2 compartments  
1AUOB-200  
595H | 450W | 480D (mm)

Acumen Open desk  
with 4 compartments  
1AUOD-400  
735H | 1085W | 485D (mm)

Acumen Open wide chest  
with 4 compartments  
1AUOC-400  
835H | 810W | 485D (mm)

Acumen Open ½ hanging,  
½ shelved wardrobe  
1AUOWH-001  
1800H | 925W | 635D (mm)

KEY FEATURES	OPTIONS	
→ 28mm thick tops and 18mm melamine-faced carcass	→ Sloping top to prevent climbing and allow thorough inspection	<i>Designed without doors and drawers to further reduce ligature risks</i>
→ Half-depth shelf with a groove instead of clothes rail to minimise ligature risks	→ Available in Hickory and Walnut finish	
→ Specially designed to minimise concealment areas (e.g. underside, between drawers)	 	
→ Stepped shelves to deter climbing		
→ Fixed shelves with reinforcement panels to prevent misuse		
→ Heavily weighted to deter misuse		
→ Security fixings to prevent tampering		
		

HARBY BEDS

2

Replaces our popular Hamble range

Harby single 3' bed  
1HYA3-100  
395H | 1985L | 990W (mm)

Strength tested to 50 stone

Harby 4' bariatric bed  
1HYA4-100  
395H | 1985L | 1280W (mm)

Harby 3' headboard  
1HYH-300  
600H | 920W | 18D (mm)

Harby 3' wall-mounted headboard  
1HYH-350  
480H | 920W | 18D (mm)

Harby double 4'6" bed  
1HYA46-100  
395H | 1985L | 1450W (mm)  
(Assembled at point of delivery)

Harby 3' bed with internal storage  
1HYA3-500  
395H | 1985L | 990W (mm)

Harby 4'6 headboard  
1HYH-460  
600H | 1370W | 18D (mm)

KEY FEATURES		
→ 28mm side panels for strength with solid reinforced under rails		
→ Enclosed base to minimise concealment opportunities		
→ Heavyweight to deter misuse		

# ACUMEN BED

Acumen single 3' bed  
1AUA-101  
445H | 2002L | 998W (mm)  
Weight: 95kg

Acumen single 3' wall  
mounted headboard  
1AUH-002  
880H | 1120W | 62D (mm)

Acumen single 3' headboard  
1AUH-001  
600H | 998W | 18D (mm)

KEY FEATURES	OPTIONS	
→ 28mm side panels for strength with solid reinforced under rails	→ Available in Hickory and Walnut finish 	
→ Enclosed base to minimise concealment opportunities		
→ Heavyweight to deter misuse		
→ Smooth rounded corners for safety		

# SOVIE

This range has been designed to provide an ideal safety solution for beds in challenging environments.

## Kydex material

The Sovie bed is coated in Kydex – a tough plastic which is commonly found in aircraft interiors. Kydex is an extremely durable finish which withstands impact and is resistant to tough chemical cleaners.

### Flame retardant

Kydex has flame retardant properties:

- Achieves Class A rating (the highest) for ASTM E-84\* surface burning characteristics of building materials
- Is self extinguishing in the absence of an external flame

### Anti-bacterial

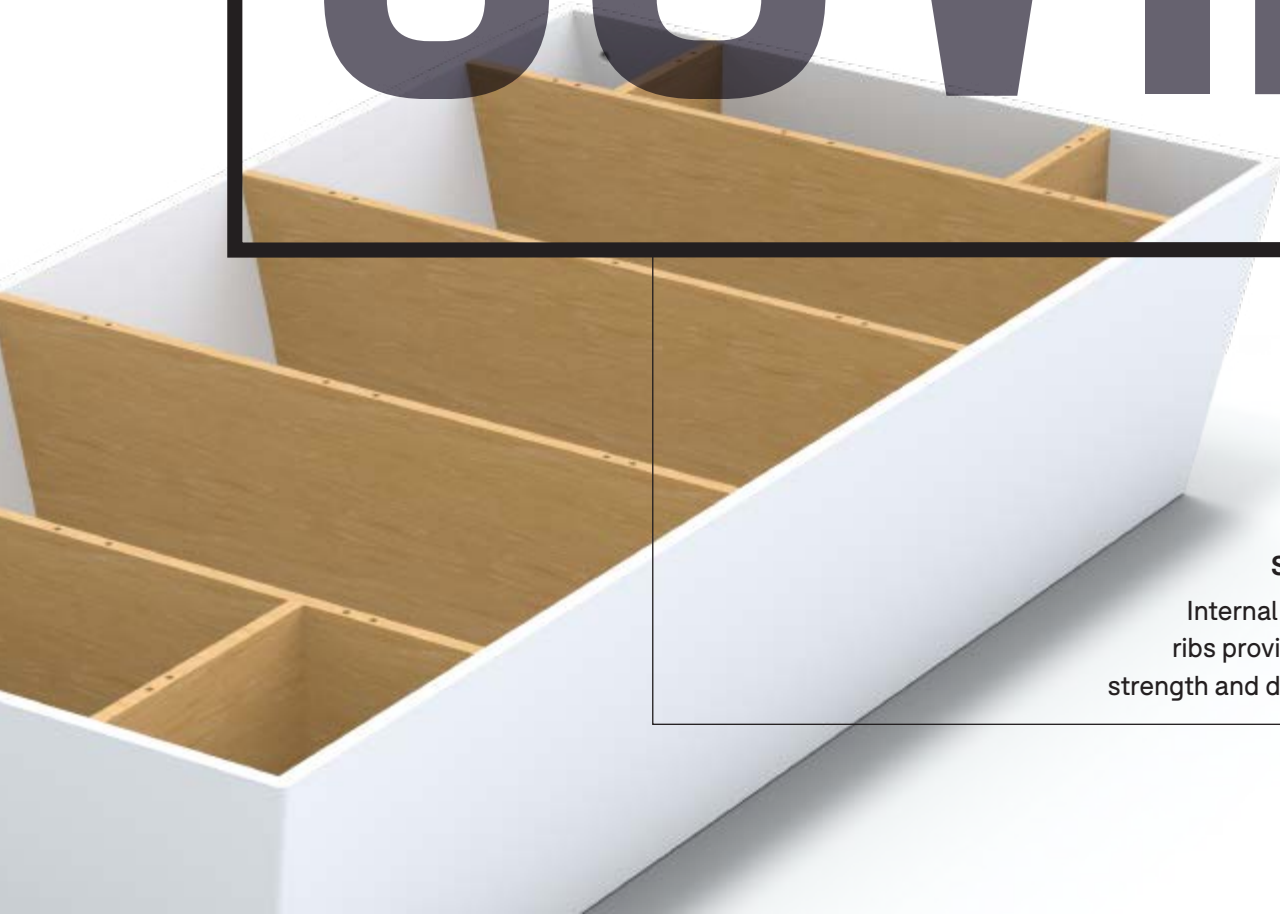

Kydex resists bacterial and fungal development:

- It provides no source of nutrients (unlike some other plastics)
- Passed ASTM G-21\* (bacteria) and ASTM G-22\* (fungus) by supporting no bacterial or fungal growth

### Chemically resistant

Kydex remains unaffected by some of the harshest chemicals:

- 70% Nitric acid
- 30% Sulphuric acid
- 10% Hydrochloric acid
- Ammonia
- 3% Hydrogen

### Strength

Internal support ribs provide extra strength and durability

### Water resistance

Sovie's one-piece mattress platform has no joints or crevices through which liquid can permeate, preserving hygiene and infection control levels

### Installation

Beds can be securely fixed to the floor, using infill panels to minimise concealment opportunities when positioned against a wall

Weir safety mirror  
1WEIRK-100  
1100H | 310W | 25D (mm)

Sovie headboard  
1SVEAH-001  
480H | 980W | 20D (mm)

# SOVIE BEDS

2

Sovie single 3' box bed  
1SVEA-100  
470H | 1940L | 970W (mm)  
Weight: 120kg

Sovie Flare single 3' bed  
1SVFA-100  
480H | 1990L | 990W (mm)  
Weight: 110kg

KEY FEATURES	OPTIONS	
→ Water-resistant one-piece mattress tray	→ Invisible floor fixing method – please advise when placing an order	
→ Internal support ribs provide extra strength and durability	→ Available in White and Hickory finish	
→ Kydex outer skin provides an extremely durable finish which is water-resistant, stain resistant, anti-bacterial and flame-retardant	<input type="radio"/> <input checked="" type="radio"/>	
→ Suitable for use with our foam mattresses (mattress size 915 x 1900mm)		

# ZURICH BEDS

Zurich single 3' bed  
1ZHA-001  
340H | 1905L | 900W (mm)

Zurich double 4'6" bed  
1ZHA-002  
340H | 1905L | 1400W (mm)

KEY FEATURES		
→ Extremely strong welded construction with mesh base		
→ Rounded corners for safety		
→ One-piece ski legs for strength		
→ Powder coated tough 50mm x 25mm steel box section frame		

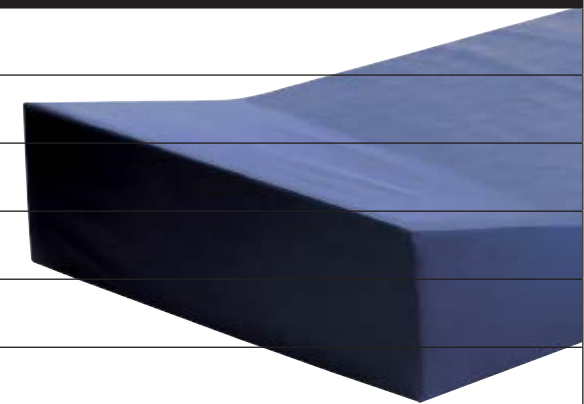

2

	Single 3' (915mm)	Small double 4' wide (1220mm)	Double 4'6" wide (1370mm)

## OPTIONS

- Available with integral pillow
- Available fire retardant to BS7177 source 5 and BS7177 source 7

Scorpio mattress  
for Ryno bed available -  
see page 53

# SCORPIO COLLAPSIBLE

Versatile design serves multiple functions including making it usable for soft seating

The patented design of our Scorprio collapsible mattress (No.GB2572141) prevents obscuring of vision panels as it ‘collapses’ when stood on end.

Available fire-retardant to BS7177 Ignition Source 5 or Ignition Source 7

An optional security under layer makes damage more noticeable during staff inspection

Unlike separate pillows, the optional integral pillow cannot be used to as a weapon or to block plumbing

## SCORPIO COLLAPSIBLE

Scorprio Collapsible anti-vandal foam mattress Crib 5  
1SOM26-63-3-C5-TRIFOLD  
76H | 1900L | 760W (mm)

Scorprio Collapsible anti-vandal foam mattress Crib 7  
1SOM26-63-3-C7-TRIFOLD  
76H | 1900L | 760W (mm)

KEY FEATURES	OPTIONS	
<div>→ Tri-folding design to stop it from being stood on its end as an obstruction to viewing panels</div> <div>→ Tear-resistant, fire-retardant, anti-vandal polyurethane cover</div> <div>→ Water-resistant heat welded seams to prevent liquid penetration – ideal for incontinence</div> <div>→ CMHR foam interior</div>	<div>→ Available with integral pillow</div> <div>→ Available fire retardant to BS7177 source 5 and BS7177 source 7</div>

**NOW IT'S TIME TO**

**MAKE ANY FABRIC**

**CHOICES AND PLACE**

**YOUR ORDER**

# UPHOLSTERY

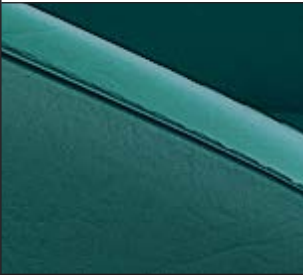

We provide an extensive range of water-resistant fabrics and vinyls to ensure that you will find the right finish for your furniture.

100,000  
MARTINDALE  
RUBS

## Vinyls

Hard wearing and water resistant, leather-effect vinyls can be wiped clean which makes them a hygienic and practical option for healthcare environments.

Call us to request your fabric swatch cards to see the full choice available

## Fabrics

A durable option which combines the comfort of soft fabric with practical water resistant properties. Please be aware, these fabrics are more susceptible to stains than vinyl.

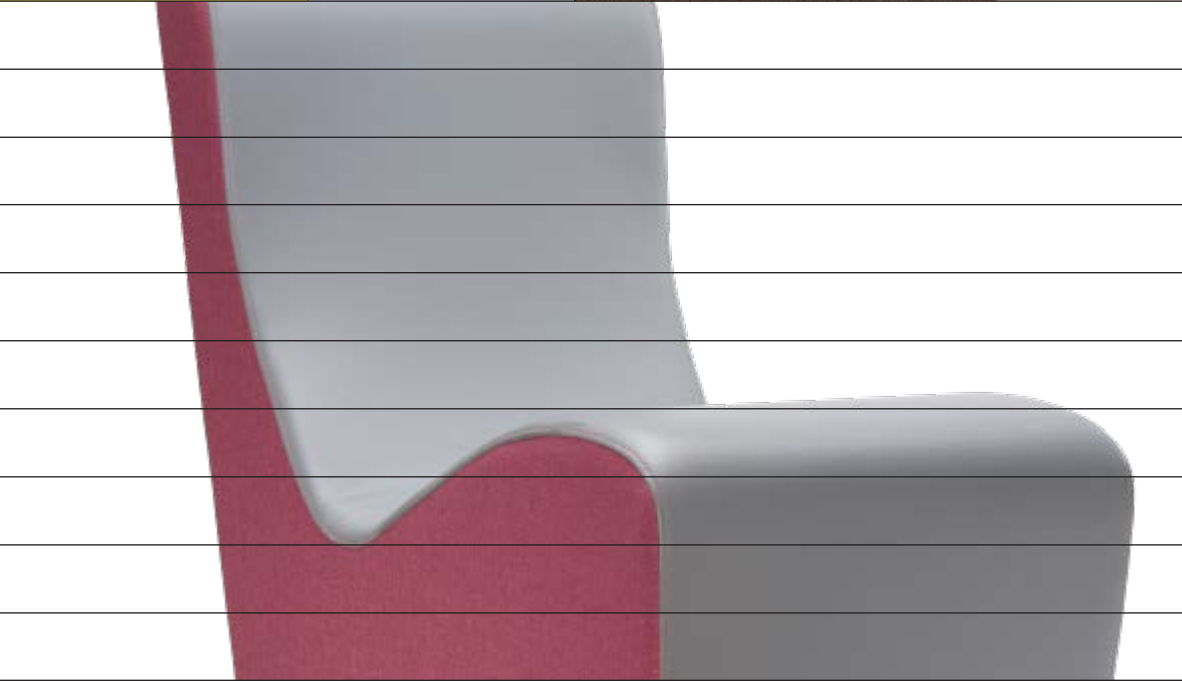

Call us to request your fabric swatch cards to see the full choice available

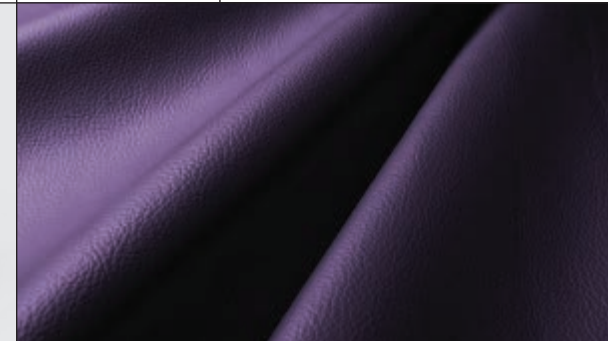

Some of our ranges are available using dual fabrics to add multiple textures and colours to one item of furniture.

**Please note:** Cracking and stickiness on vinyl fabrics are known issues to fabric manufacturers. As furniture manufacturers, Pineapple cannot accept responsibility.
